SKILLS

- **Programming:** Python, Java, C, JavaScript, TypeScript, R, SQL, ARM Assembly.
- **Web & Application Development:** HTML, CSS, React, Node.js, Express.js, Electron, PyQt5, Vite.
- **UX & Design:** User Research, Usability Testing, Wireframing, Prototyping, Figma, Canva.
- **Tools & Platforms:** Git, GitHub, VS Code, Microsoft Office, Google Workspace.

EDUCATION

Bachelor of Science in Computer Science and Psychology Sept. 2023 – Apr. 2027
Wilfrid Laurier University Waterloo, ON

- Minor in User Experience Design, Concentration in Computation and Cognitive Neuroscience.
- **Relevant Coursework:** Data Structures, Software Engineering, UX Research Methods, Statistics.
- President's Gold Entrance Scholarship Recipient, Husky Injection Molding Systems Scholarship Recipient.
- **4.0 GPA**, Dean's Honour Roll Recipient.

EXPERIENCE

Software Development Assistant Apr. 2025 – Aug. 2025
Teknion Toronto, ON

- Developed Python (PyQt5) interfaces for an internal employee task-tracking system deployed on Raspberry Pi.
- Translated manufacturing workflow requirements into functional user interfaces to support employee productivity.
- Collaborated with company stakeholders and technical mentors throughout the software development process.

Digital Electronics Instructional Assistant Sept. 2025 – Dec. 2025
Wilfrid Laurier University Waterloo, ON

- Supported 20+ students in mastering breadboarding, circuit design, and digital logic concepts.
- Evaluated laboratory exercises and final projects, delivering timely feedback to support student learning.
- Assisted students in troubleshooting hardware and logic-design issues to reinforce key electronics concepts.

Faculty of Science Orientation Representative Sept. 2025
Wilfrid Laurier University Waterloo, ON

- Welcomed 100+ incoming students at the Computer Science program booth, fostering a welcoming environment.
- Answered questions regarding coursework, student life, and campus resources to support new students.
- Facilitated connections between new students, peers, professors, and campus resources to promote engagement.

PROJECTS

SetList – UX Hackathon Prize Winner | *UX Research, Figma Prototyping, Wireframing* Mar. 2025

- Designed a high-fidelity Figma prototype for a concert companion app during a 36-hour UX hackathon, applying the full UX process from user research through usability testing.
- Awarded Most Innovative Design and a \$300 prize for delivering a user-centered, engaging solution.
- Collaborated in a 3-person team and incorporated industry feedback to refine the design under time constraints.

TextSense – AI Accessibility Analysis Tool | *React.js, Node.js, Express.js, Gemini API* Dec. 2025

- Built a full-stack web application that analyzes text for readability and accessibility, generating improvement suggestions for web content.
- Integrated Google Gemini 2.5 Flash API via an Express backend to generate AI-based analysis from user input.
- Deployed the application using GitHub Pages and Render to enable live user interaction.

The Failure Museum – UX Hackathon 3rd Place Winner | *UX Research, Figma Prototyping* Mar. 2026

- Collaborated in a 4-person team to design a platform promoting independent student learning before AI use.
- Conducted user research to identify barriers to confidence and independent problem-solving among students.
- Placed 3rd and won a \$250 prize after presenting the solution to industry judges.
